LUCKNOW CO-OP

*INVISIBLE DANGER...
SILENT KILLER*

Carbon Monoxide

Did you know?

- C/O is an odorless/colourless gas that is the leading cause of accidental poisoning deaths in North America
- C/O replaces oxygen in the blood and prevents the flow of oxygen to the heart, brain and other vital organs
- Bill 77 mandates that every home in Ontario be equipped with a C/O detector as of April 15, 2015
- Non-compliance is a chargeable offence up to \$50,000
- Appliances or heating devices that use wood, propane, natural gas, furnace oil, coal, kerosene, charcoal or gasoline have the potential to produce dangerous levels of C/O
- In February 2016, 2 employees at a welding & machining company in Mitchell, Ontario suffered critical injuries from toxic C/O levels at their workplace... be PROACTIVE... workplaces should be equipped with C/O detectors too!

LUCKNOW CO-OP

*INVISIBLE DANGER...
SILENT KILLER*

Carbon Monoxide

Know the warning signs:

- headache
- dizziness
- nausea
- breathlessness
- collapse
- loss of consciousness

***PROTECT YOURSELF,
YOUR FAMILY, YOUR EMPLOYEES
AND YOUR CUSTOMERS!***

- Replace C/O detectors after 7 years
- Replace batteries in C/O detectors (and smoke detectors) twice a year

IF C/O DETECTOR ALARM SOUNDS:

- Get yourself & everyone else in the building OUTSIDE to fresh air
- Call 911

***BRING THIS FLYER INTO THE
LUCKNOW CO-OP AND RECEIVE
10% OFF THE PURCHASE OF A
NEW CARBON MONOXIDE
DETECTOR***

Expires June 1, 2025
