WINTER FUEL DELIVERIES - REMINDERS

We are well into the busy
season of propane and
furnace oil deliveries
to keep your home &
businesses warm & cozy.

A few reminders to make
this a smooth process:

- * Read your tank gauge often, know how much fuel is in your tank
 - * Keep your laneways plowed so we can access your tank
 - * Use laneway markers to help guide us
- * If house is unoccupied, have someone monitor your tank level often
 - * Call us when your tank level is at 20-25%
- * When leaving an after-hours message, be sure to leave your name, number, delivery address & current tank level

519-529-7953 option 1

Please Note: If you have used your Generator in a Power Outage,
don't forget to check your tanks and update us with an
accurate reading so you don't run out!
